

NOTIFICATION OF IMPORT OR EXPORT OF MATERIAL

FORM: ASO205

PART A – Prior notice of import/export (provide 2 days in advance of transfer)	Ref. N ^o .	
--	-----------------------	--

Applicant details

Applicant's permit number:	Mark Import/Export as appropriate	IMPORT <input type="checkbox"/>	EXPORT <input type="checkbox"/>
----------------------------	-----------------------------------	---------------------------------	---------------------------------

Other Party details

Name:
Physical Address:
Proposed use of the material after transfer:

Material details

Batch number:	Item Identifier:	Material category:
Any attributed Country obligations:	Irradiated (Yes/No):	Containment:
Chemical/Physical form and Purity:		
Element weight:	For enriched uranium	
	²³⁵ U isotope weight	²³³ U isotope weight

Shipment details

Name of carrier:	ACN/ABN:	Carrier's permit number:
Proposed date and location of arrival in Australia/departure from Australia:		
Physical Location at which responsibility transferred:		
Proposed date and location of packing/unpacking:		

Name :	_____
Position :	_____
_____ (Signature)	
Date :	___/___/___

NOTE: Copy of notification **TO EXPORT** will be faxed to Dept. Industry, Tourism and Resources.

PART B – Confirmation of Import/Export		_____ (Signature) Date : ___/___/___
Using this form submit (via facsimile) actual date of Import/Export of nuclear material by 12pm the next working day.	Date of import/export or note withdrawal of application (if applicable)	

Explanatory Notes

Application is only required if a permit holder becomes aware that nuclear material is going to be either in (receiver) or out of (shipper) their physical possession for more than 30 days, or where ownership of the material changes.

Ref. N^o: A sequential reference number is required for each form of this type submitted by the Permit Holder (eg 001, 002, 003 etc). Where amendments are made to a previously submitted form, please use the same reference with a sequential revision number (e.g. 2005-003 Rev 1)

Other Party Details: Provide details of the importing organisation if exporting or the exporting organisation if importing nuclear material or associated material.

Proposed use of the material after transfer: For example, Storage, Research, Industrial Radiography, Environmental Tracer, and Production of medical isotopes.

Batch number / Item Identifier: A batch consists of either one or several items with the same chemical and isotopic composition, physical form. Provide individual item identifiers (eg serial numbers) where known.

Material category: The category of nuclear material of associated material i.e. either natural uranium (N), enriched uranium (E), depleted uranium (D), Thorium (T), Plutonium (P), heavy water (W) or graphite (G).

Any attributed Country obligations: Provide details where known otherwise “unknown”, or write “none” if material was produced in Australia.

Containment: Describe type and size/volume of container. Eg. 100g bottle, 0.5 litre flask, within radiography camera.

Chemical / Physical form and Purity: Provide chemical formula (or name if unknown) and describe physical form. Eg UF₆ gas, UO₂ powder, metal shielding block, Thorium nitrate solution, etc. Common compounds are described for example in the *Handbook of Chemistry and Physics* and the *Merck Index*. Describe also purity of batch eg heterogeneous, variable, manufactured, standard etc.

Element weight: This refers to the contained weight of nuclear material in the compound. Eg U weight = 84.8% U₃O₈ weight. Use compound weight for Heavy Water.

Carrier's permit number: Some amounts of nuclear material require that a 3rd party carrier obtain a permit to transport nuclear material. A carrier's permit is not required for material prescribed by the *Nuclear Non-Proliferation (Safeguards) regulations* for the purpose of sub-section 24(1) of the *Nuclear Non-Proliferation (Safeguards) Act 1987*.

Proposed date and location of arrival in Australia / departure from Australia: Notice must be provided 2 working days in advance of transfer.

Signature: This form must be signed by a representative of the permit holder (i.e. the organisation) who will take responsibility and sign documents on behalf of the organisation.

Part B: After import/export has taken place, provide notification to ASNO of the actual date of transfer or where applicable, note that the transfer has been cancelled.
